OPERATIONS & MAINTENANCE

KEEPING UTILITY SYSTEMS SAFE, RELIABLE & EFFICIENT

Protecting What Powers Communities.

Why Sparus Holdings?

At **Sparus**, we help utilities maintain the safety and integrity of critical infrastructure through proactive operations and maintenance programs. With over 75 years of experience in gas, electric, and water utility field services, our teams bring proven expertise and innovation to every project.

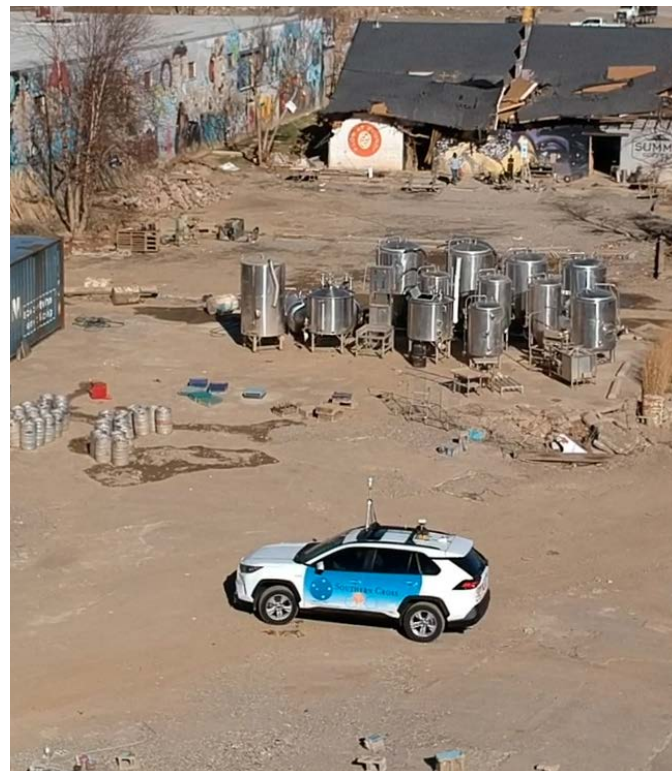

As a trusted partner, Sparus delivers comprehensive inspection, leak detection, corrosion monitoring, and maintenance programs that protect people, property, and the environment. We customize each program to meet client needs—ensuring compliance, reliability, and performance at every stage.

Industry Insight

Utilities across the nation face growing regulatory pressures and aging infrastructure challenges. Maintaining safe, efficient operations requires precision, accountability, and adaptability. Sparus Holdings provides utilities with the expertise and technology to meet these challenges—reducing risk, extending asset life, and ensuring uninterrupted service to the communities they serve.

Technology in Action

Sparus combines decades of field experience with

advanced inspection technologies to enhance accuracy, efficiency, and data transparency. From Advanced Mobile Leak Detection (AMLD) and atmospheric corrosion inspection to GPS-enabled pipeline mapping, we integrate innovation into every operation. Our cloud-based systems deliver real-time results, enabling faster decision-making and better visibility across utility networks.

Our Capabilities

Leak Survey & Detection

Identifying and addressing risks before they become incidents.

- Over 75 years of gas leak survey experience
- Leak detection, classification, and reporting
- Emissions quantification and compliance documentation
- Advanced Mobile Leak Detection (AMLD) for fast, accurate pinpointing

Atmospheric Corrosion Inspection & Remediation

Ensuring pipeline integrity through proactive inspection and repair.

- Comprehensive corrosion monitoring and treatment
- Documentation aligned with regulatory standards
- Field data capture with GPS-enabled inspection tools
- Custom remediation plans to meet system requirements

Pipeline & Infrastructure Inspection

Protecting system performance across diverse environments.

- Walking, ATV, aerial, and subaqueous inspection capabilities
- GIS-based mapping and condition assessment
- Data-driven maintenance recommendations
- Experienced technicians certified for pipeline safety compliance

The Sparus Advantage

Innovation

Leveraging cutting-edge LiDAR, thermal, and high-resolution imaging technology.

Safety

Reducing risk by eliminating the need for manual inspections in hazardous areas.

Efficiency

Fast deployment and comprehensive data collection for actionable insights.

Compliance

Helping utilities meet stringent EPA and regulatory standards.

Expertise

Industry-leading solutions backed by decades of utility field services experience.

Your Trusted Utility Partner

Sparus provides world-class utility field services and infrastructure technology solutions. Partner with SPARUS to power the future of distributed energy. Contact us today to explore how we can help your business optimize energy use, lower costs, and contribute to a resilient, sustainable grid.
